

Web of Science Research Assistant	
Code	01CR0116-1/ 06CR0116-1
Format	Online
Date	October 20th, 2025
Time	16:00 h
Duration	1 h
Location	TEAMS URV
Places	Unlimited
Recipients	PDI and Doctoral students
Taught by	Anne Delgado (Clarivate)
Language	English

Description

Web of Science is a multidisciplinary database that includes more than 20,000 academic journals from around the world. Recently, **Universitat Rovira i Virgili** has subscribed to the **Research Assistant** tool from Web of Science, an artificial intelligence assistant that helps researchers explore and interpret the literature.

Objectives and learning results

Objectives:

- Understand the features of the Web of Science Research Assistant.
- Learn to search using natural language in any language.
- Learn how to conduct a step-by-step literature review.

At the end of the session, the participant will be able to understand and use the main features of the Web of Science Research Assistant, perform natural language searches to find relevant scientific literature and conduct a step-by-step literature review using effective strategies.

Content

- How to search using natural Language in any Language
- How to formulate good questions to develop an efficient search strategy
- How to conduct a step-by-step literature review with the AI assistant

Methodology

Theoretical presentation and online access to resources.

Assessment and certification

To obtain the certificate of attendance it is necessary to attend 80% of the session and answer the final satisfaction survey. The certificate will be received by email.
